

# Ethernet

*Your Network, Secured*

## Our solution

At Global Secure Layer, we provide secure, dedicated point-to-point or multipoint links of up to 10Gbit. GSL provides carrier-grade redundancy with private, reliable and low-latency paths. With data centres in major local and international locations, we ensure your business is globally connected.

## Ethernet key features

### Point-to-point and multipoint

Providing you with a secure connection to one or more data centres - locally, nationally and globally.

### Low latency routes

Global Secure Layer provides carrier-grade low-latency private ethernet services, connecting your network together via the shortest viable paths.

### Carrier-diverse options available

GSL acquires terrestrial and subsea cable capacity from multiple fibre carriers allowing us to provide hardware & carrier-diverse cable paths on key routes.

### Flexible and scalable carrier-grade network

With international coverage, our carrier-grade network will accommodate all business needs providing 100Mbit-10Gbit.

### Secured end-to-end

Our dedicated, secure and privately managed connection uses data centres in major local and international locations.

## Our Backbone Network
